PROFESSIONAL SUMMARY

Computer Science undergraduate graduating December 2026 with experience in IT support, software development, and ServiceNow platform configuration. Resolve 20+ IT support tickets weekly and develop applications using C#, Java, Python, JavaScript, React, and .NET. Built projects involving event-driven inventory workflows, multithreaded networking, REST APIs, and computer vision. ServiceNow Certified System Administrator and runner-up in the 50th Annual SFA Coding Competition.

TECHNICAL SKILLS

Languages: C#, Java, Python, JavaScript, SQL, HTML, CSS, TypeScript
Development: .NET, ASP.NET Core, React, Git, Visual Studio, REST APIs, socket programming, multithreading
Tools & Platforms: ServiceNow, Microsoft 365, PostgreSQL, Docker, OpenCV, YOLO, Streamlit

PROFESSIONAL EXPERIENCE

Student IT Support Assistant | Stephen F. Austin State University | Aug 2025 – Present

- Resolve 20+ IT tickets per week involving mySFA, Microsoft 365, and network connectivity; provide same-day resolution for priority issues.
- Set up and troubleshoot classroom technology to reduce audiovisual-related class delays.
- Diagnose hardware, printer, and scanner issues to restore service and minimize equipment downtime.

Meridian Program Intern | Provalus | Jul - Aug 2026; Sept 2026 – Present

- Completed structured ServiceNow training in JavaScript scripting, application configuration, and data management to strengthen platform-development knowledge.
- Continued ServiceNow application-development training and Certified Application Developer (CAD) exam preparation; studied APIs, integrations, and enterprise data workflows.

SELECTED TECHNICAL PROJECTS

StockBridge | C#, .NET 8, PostgreSQL, React, Docker | StockBridge

- Developed event-driven inventory reconciliation workflows using idempotent webhook ingestion, an append-only movement ledger, and a transactional outbox to address duplicate and conflicting stock updates.

SignalDesk | ASP.NET Core, React, TypeScript | SignalDesk

- Built a local incident-reporting prototype with report submission, status updates, API validation, and version checks that reject stale changes with HTTP 409 responses.

Study Guardian | Python, OpenCV, YOLO | Study Guardian

- Built webcam-based real-time phone detection with configurable confidence, hold time, and alerts to support distraction monitoring during study sessions.

Multi-Threaded Chat Application | Java | Multi-Threaded Chat App

- Developed a socket-based chat application using multithreading to support concurrent client connections.

EDUCATION

Bachelor of Science in Computer Science | Stephen F. Austin State University | Dec 2026

GPA: 3.2
Coursework: Data Structures, Algorithms, Operating Systems, Networking, Databases, Client-Server Programming

CERTIFICATIONS & RECOGNITION

- ServiceNow Certified System Administrator (May 2026)
- Google AI Professional Certificate & Specialization (Jun 2026)
- IBM Introduction to Cloud Computing & DevOps (Jun 2026)
- EY & Microsoft AI Skills Passport (Oct 2026)
- IBM Data Analysis with Python (Oct 2026)
- ServiceNow Certified Application Developer (CAD)
- Runner-Up, 50th Annual SFA Coding Competition (Apr 2025)
